Table 19.4a. Relative standard errors (%) of total above-ground carbon by managed forest region in Canada.

| Managed forests | Above-<br>ground<br>carbon |
|-----------------|----------------------------|
| 0               | 11.1                       |
| 11              | 1.0                        |
| 12              | 2.4                        |
| 13              | 1.1                        |
| 20              | 2.6                        |
| 31              | 9.3                        |
| 32              | 7.2                        |
| 33              | 3.8                        |
| 40              | 4.2                        |
| 50              | 1.9                        |
| 100             | 3.5                        |
| Canada          | 0.3                        |

Source: Canada's National Forest Inventory, combined remeasured (2007-2017) and projected (2006-2017 with NFI projection system) data (Version 2, November 2022) (http://nfi.nfis.org)

Note: The Arctic ecozones (Arctic Cordillera, Northern Arctic, Southern Arctic), and the Taiga Plains and Hudson Plains ecozones located in Nunavut, are not inventoried. These non-inventoried areas total 262,189.89 thousand ha.

## Managed forest

| Code | Description  |
|------|--|
| 0    | Not available  |
| 11   | Long term volume or area based Crown timber dispositions                         |
| 12   | Short term volume or area based Crown timber dispositions                        |
| 13   | No current Crown timber dispostions  |
| 20   | Legal protection status<br>(IUCN class IA, IB, II, III, IV,<br>V, VI equivalent) |
| 31   | Reserved by the Federal government for military or other purposes                |
| 32   | Reserved by the Federal government under the Indian Act                          |
| 33   | Reserved or designated restricted use by provincial or territorial government    |
| 40   | Aboriginal lands   |
| 50   | Privately-owned lands  |
| 100  | Water  |
